### Objective

---

To pursue challenging and professional assignments in an organization that values professionalism and enthusiasm. I aim to contribute effectively to the organization's growth while continuously enhancing my technical and interpersonal skills.

### Profile

---

- Currently working at **Grassroots Solutions & Services Pvt. Ltd.** as a **Software Test Engineer**.
- 2.5 years of experience in the IT industry, specializing in the **Software Testing domain**.
- Skilled in **Manual Testing** for Web and Mobile Applications.
- Hands-on experience across the **Software Testing Life Cycle (STLC)** including Requirement Analysis, Test Planning, Test Case Development, Execution, and Reporting.
- Familiar with **Agile development methodology** and domain expertise in **E-commerce, CRM, and Mobile applications**.
- Ability to meet deadlines, adapt quickly to change, and work efficiently in fast-paced environments.
- Proficient in MS excel with hands on experience in Pivot table, charts, dashboard & reporting

### Manual Testing Skills

---

- Experienced in **functional, regression, integration, system, and end-to-end testing**.
- Strong understanding of **STLC, Bug Life Cycle, and Agile methodologies**.
- Proficient in writing, executing, and reviewing **test cases**.
- Exposure to **API Testing** using **Postman**.
- Experienced with **Jira** and **CLM** for test management and bug tracking.
- Familiar with **SQL Server** for backend validation.

### Automation Testing Skills

---

- Good knowledge of **Selenium WebDriver with Java**.
- Good knowledge of creating and executing test scripts using **TestNG** framework.
- Familiar with **Data-Driven** and **Hybrid Frameworks**.
- Working knowledge of **Core Java** concepts relevant to automation.

## Project Details

---

**Client:** Tata Play | **Duration:** 2023 – Present

**Organization:** Grassroots Solutions & Services Pvt. Ltd.

**Role:** Software Test Engineer

**Tools:** Siebel CRM, Jira

### Project Description:

Tata Play is India's leading DTH (Direct-To-Home) satellite television service provider. The project involved optimizing and testing various customer and operations-facing applications, enhancing digital TV service experiences through CRM and E-commerce platforms.

### Roles and responsibilities:

- Identified test scenarios and developed effective test cases from requirements.
- Wrote and executed **Smoke** and **Regression test cases**.
- Performed **Functional, Integration, System, Acceptance, and Compatibility testing** in **Staging, Pre-Prod, and Prod** environments.
- Executed test cases and shared test execution reports after each release cycle.
- Participated in **test case reviews and execution processes**.
- Tracked bugs and defects using **Jira**, from logging to closure.
- Participated in **Scrum meetings**, including **Daily Stand-ups** and **Sprint Retrospectives**.
- Collaborated with developers for issue resolution and verification.
- Manually tested **Web Applications** and **E-commerce platforms**.
- Conducted **API Testing** using **Postman**.
- Worked on **Siebel CRM, OTT, and DTH** platform-based applications.

## Technical Skills

---

- **Languages/Tools:** Core Java, Selenium WebDriver, TestNG, Jenkins, Git
- **Database:** SQL (PostgreSQL)
- **API Testing:** Postman
- **Test Management Tools:** Jira, CLM
- **Office 365**

## Academic Qualification:

---

- **B.E. in Electronics & Communication Engineering**, AITM, Belagavi – 2022 – 65% (First Class)
- **PUC**, Angadi College of Commerce & Science, Belagavi – 52%
- **SSLC**, BVN Government High School, Sundoli – 76%

## Declaration

---

The above statements are true to the best of my knowledge and belief.
