## PROFESSIONAL SUMMARY

QA Engineer with 2+ years specializing in manual testing with automation knowledge. Expert in test case design, defect tracking, and Agile/Scrum. Skilled in functional, regression, smoke, integration, and UAT testing with strong defect lifecycle management using Jira.

## PROFESSIONAL EXPERIENCE

<b>Quality Assurance Engineer</b> <i>Uexcellerate</i>	August 2023 – December 2025 <i>Bengaluru, India</i>
<ul style="list-style-type: none"><li>- Designed and executed comprehensive manual test cases, test scenarios, and test scripts for web-based applications.</li><li>- Performed functional, regression, smoke, sanity, integration, and UAT testing across multiple release cycles.</li><li>- Conducted detailed exploratory testing to identify edge cases and uncover hidden defects beyond scripted scenarios.</li><li>- Executed cross-browser and cross-platform testing on Chrome, Firefox, Edge, and Safari ensuring compatibility.</li><li>- Identified, documented, and tracked defects through complete bug life cycle using Jira with proper prioritization.</li><li>- Validated UI/UX elements, field-level validations, error messages, workflows, and navigation flows for accuracy.</li><li>- Created detailed test documentation: test plans, test cases, test data sheets, RTM, and defect reports.</li><li>- Participated actively in Agile ceremonies: daily stand-ups, sprint planning, retrospectives, and backlog grooming.</li><li>- Performed end-to-end testing validating complex business workflows, integrations, and data flow across modules.</li><li>- Supported pre-release sanity testing, build verification, and monitored deployment activities for production readiness.</li><li>- Collaborated with developers, business analysts, and stakeholders to clarify requirements and resolve defects.</li><li>- Facilitated UAT sessions with business users to validate functional requirements and acceptance criteria.</li><li>- Conducted compatibility testing across different environments, browsers, and operating systems.</li><li>- Applied SDLC and STLC best practices to ensure comprehensive test coverage and quality deliverables.</li><li>- Maintained Selenium WebDriver automation scripts using TestNG and POM framework for regression testing support.</li><li>- Gained experience with BDD framework using Cucumber during ACTITime training project.</li></ul>	

## TECHNICAL SKILLS

<b>Testing Types:</b> Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, UAT, Exploratory Testing, Ad-hoc Testing, Cross-Browser Testing, Mobile Testing, End-to-End Testing, Compatibility Testing
<b>Test Management:</b> Test Case Design, Test Plan Creation, Test Execution, Test Data Preparation, Defect Reporting, RTM, Bug Life Cycle
<b>Defect &amp; Project Tools:</b> Jira, Bugzilla, Test Management Tools, PostHog
<b>Automation Tools:</b> Selenium WebDriver, TestNG, POM Framework (Basic Knowledge)
<b>Methodologies:</b> Agile/Scrum, SDLC, STLC, Sprint Planning, Requirement Analysis, Risk-Based Testing

## EDUCATION

<b>Bachelor of Technology (B.Tech)</b> <i>Vignan Institute of Technology and Management</i>	Graduated: 2021
<b>Diploma in Engineering</b> <i>Bharat Institute of Engineering and Technology</i>	Graduated: 2017

## CERTIFICATIONS

<b>Manual &amp; Automation Testing Certification</b> <i>QSpiders - Software Testing Institute</i>	Completed: 2023
--	-----------------

## KEY STRENGTHS

Quality Assurance Best Practices   Agile/Scrum Environments   Defect Analysis & Root Cause Identification   Detail-Oriented   Quick Learner   Cross-Functional Collaboration   Problem Solving   Analytical Thinking
