
SKILLS

Testing Tools: JIRA, Postman, Playwright

Testing Types: Manual, Functional, Regression, Smoke, UI, API Testing

Tools and Technologies: Agile Methodology, Bug Tracking, Test Case Design, Test Execution, REST APIs, SDLC/STLC

Others: Good understanding of QA processes, Strong analytical and problem-solving skills, Clear documentation and communication

Experience

QA Test Engineer

Aug 2024 – Present

- Prepared and executed detailed test cases from requirements.
- Conducted Postman API testing for request/response validation.
- Participated in daily stand-ups, sprint planning, and QA reviews as part of the Agile process.

Intern

Feb 2024 – Jul 2024

- Assisted in manual testing of core application modules under senior QA guidance.
- Executed test cases, captured results, and reported defects in JIRA.

Associate

Oct 2021 – Sep 2022

- Researched and reconciled utility and non-utility vendor invoices for residential and commercial accounts, ensuring data accuracy and compliance.
- Performed regular quality checks on manually entered invoice data to ensure precision and reduce errors.

PROJECTS

Smart Loto

- Conducted extensive manual testing on the Lockout-Tagout (LOTO) safety system designed for industrial machine isolation.
- Prepared detailed test scenarios and test cases covering functional, integration, and edge case testing.
- Executed end-to-end testing of role-based flows involving Technicians, Custodians, and Issuers, ensuring process accuracy.
- Reported and tracked issues in JIRA, coordinated with developers to validate fixes, and performed retesting.
- Performed cross-browser and responsive testing to ensure UI consistency across devices.

Godenty

- Executed manual testing on web and mobile interfaces for a dental ecosystem connecting professionals and service providers.
- Validated user registration flows, role-based access, and module-specific permissions (Doctors, Admins, Vendors).
- Performed API testing with Postman to verify secure data transactions and authorization flows.

SPARK (Security Profiling, Assessment, Remediation Kit)

- Utilized SPARK to assess asset health and identify critical security vulnerabilities.
- Performed regular configuration evaluations using SPARK to monitor and improve security posture.
- Generated security scores and recommended remediation actions using the SPARK platform.

EDUCATION

QIS College of Engineering and Technology

B.Tech (CSE)

CGPA: 7.8

Ongole, AP

2019

N.R.I College

10+2 (MPC)

CGPA: 6.7

Ongole, AP

2015

Sivani Public School

10th Class

CGPA: 7.7

Ongole, AP

2013

Strengths

- Strong attention to detail and passion for quality.
- Quick at identifying edge cases and analyzing requirements.
- Effective collaboration with developers and project managers.
